Memo No. *517/20* P-1/403

Dated: *12.08.2024*

Subject: - Regarding Feasibility clearance of M/s Batala Co-Op Sugar Mill, Batala, A/C no. 3002309486.

In continuation with Amendment no. 28/2023-2024 issued vide memo no. 635/38/P1-403 dated 15.12.2023, it has been decided that an Indemnity Bond shall be submitted by the firm which should cover the cost of augmenting the 132kV idle line from 220kV substation Wadala Granthian to 132kV substation Kotli Surat Malhi only up to the tap point which is approximately 8 KMs from 220kV substation Wadala Granthian. This augmentation involves upgrading to a Single Circuit on Double Circuit line on 220 kV towers with 0.2 Sq. Inch ACSR, which PSTCL may require if additional circuits are needed on this Right of Way (RoW) in the future.

Additionally, the firm will deposit the actual cost of constructing the new Single Circuit on Double Circuit line (approximately 2 KMs) on 220 kV towers with 0.2 Sq. Inch ACSR from the tap point to the Sugar Mill end along with cost for associated equipment required at the 220kV Substation Wadala Granthian end.

All the other provisions/scope of work in the amendment shall remain unchanged.

This issues with the approval of CMD, PSTCL.
